

# As Long As The Grass Shall Grow

Twilo Scofield

We first knew you as the fee - ble tree That need-ed a place to  
Good words and bro - ken prom - i - ses You gave us and we trust-ed

grow We could have trod you un - der our feet But we  
you You came to live in peace you said And that's

taught you the ways that we know Good too As  
all that we want - ed too

long as the sun will shine As long as the riv - ers may flow

As long as the moon will rise And as long as the

grass shall grow
